Act_FrameNavBar.html	Active Link Colour	The colour of active links in the navigation frame	Design Colors Active Link
Act_Primary.html	Active link color	Color of link text as you click the link	Design Colors

Template	Name	Description	Source
ALTERNATETEXT			
Act_BrochureImage.html	Alternate text	The alternate image text	Company Name in Business Settings Company/Contact
Act_BrochureNavImage.html	Alternate text	The alternate image text	Page Title in Edit Page
Act_Logolamge.html	Alternate text	The alternate image text	Company Name in Business Settings Company/Contact
Act_NavigationImage.html	Alternate text	The alternate image text	Description in Design Options Navigation
Act_ProductImage.html	Alternate text	The alternate image text	Select a product, Edit, Short Description
Act_SectionHeadImage.html	Alternate text	The alternate image text	Select a section, Edit, Name
Act_SectionNavImage.html	Alternate text	The alternate image text	Select a section, Edit, Name
APPLETBGCOLOR			
Act_Order03.html	Applet background color	The colour for the background of the java applet. The colour is specified in "#rrggbb" with "rr" being the hexadecimal colour value for red, "gg" for green, and "bb" for blue (use the colour selector).	Design Colors Applet Background
APPLETFGCOLOR			
Act_Order03.html	Applet text color	The colour for the text in the java applet. The colour is specified in "#rrggbb" with "rr" being the hexadecimal colour value for red, "gg" for green, and "bb" for blue (use the colour selector).	Design Colors Applet Text
APPLETPARAMS			
Act_Order03.html	Parameters for the java applet	System parameters required for the correct function	
ATTRIBUTENAME			
Act_VariantAttributeName.html	The attribute name	The name of the attribute	Select Attribute, Edit, Attribute Name
ATTRIBUTEREF			
Act_VariantListHeader.html	Attribute reference	The actinic-generated reference to the form element	
Act_VariantRadioButton.html	Attribute reference	The actinic-generated reference to the form element	

Template	Name	Description	Source
BACKBUTTON			
Act_Order01.html	"Back" button label	The "Back" button label	Design Text Web Site tab Encryption (Java) sub-tab Fourth line. This field is on the Java tab because it is shared with the applet label descriptions.
Act_Order02.html	"Back" button label	The "Back" button label	Design Text Web Site tab Encryption (Java) sub-tab Fourth line. This field is on the Java tab because it is shared with the applet label descriptions.
Act_SignPage.html	"Back" button label	The "back" button label	View Design Options Advanced: Language Encryption (Java). This field is on the Java tab because it is shared with the applet label descriptions.

BGCOLOR

Act_BrochurePrimary.html	Page background color.	If a background color is specified instead of the background image, this is replaced by the appropriate markup. Is empty if BGIMAGE is defined.	Design Colors
Act_ExtendedInfo.html	Page background color.	If a background color is specified instead of the background image, this is replaced by the appropriate markup. Is empty if BGIMAGE is defined.	Design Colors
Act_Primary.html	Page background color.	If a background color is specified instead of the background image, this is replaced by the appropriate markup. Is empty if BGIMAGE is defined.	Design Colors

BGCOLOUR

Act_BrochureFrameNavBar.html	Background colour	The background colour if any (specified in #XXXXXX hex code)	Design Colors Frame Background
Act_FrameNavBar.html	Background colour	The background colour if any (specified in #XXXXXX hex code)	Design Colors Frame Background

Template	Name	Description	Source
BGIMAGE			
Act_BrochureFrameNavBar.html	Background image	The background image filename if any	Design Options Site Defaults Frame Background
Act_BrochurePrimary.html	Page background image.	The markup for the page background image. It is empty if a background color is specified instead of an image.	Design Options Site Defaults
Act_ExtendedInfo.html	Page background image.	The markup for the page background image. It is empty if a background color is specified instead of an image.	Design Options Site Defaults
Act_FrameNavBar.html	Background image	The background image filename if any	Design Options Site Defaults Frame Background
Act_Primary.html	Page background image.	The markup for the page background image. It is empty if a background color is specified instead of an image.	Design Options Site Defaults
BODY			
Act_ConfirmRemoveTemplate.html	Page body	The body of the page. The product details and the confirm/cancel buttons.	The shopping cart script dynamically evaluates this variable on-line.
Act_ShoppingCart.html	Page body	The body of the page. The items in the cart, the edit buttons, the remove buttons, and the "return to catalog" link.	Act_ShoppingCartXML.html
BOTTOMSECTIONSEPARATOR			
Act_ProductBody.html	Horizontal line	The horizontal line separating the section lists from the rest of the page	Act_SectionSeparator.html
BOUNCEMESSAGE			
Act_BounceBody.html	The bounce message	The text of the bounce page message	Various prompts as defined in Design Text
BROCHUREBODY			
Act_BrochureFrameSet.html	Brochure body page name	The URL of first page of the Brochure site. Normally '../index.html'	
Act_BrochurePrimary.html	The main body of the brochure page	Replaced by the page fragments within that page	Act_ImageAndTitle.html, Act_TextOnly.html, Act_ImageOnly.html, Act_LeftImage.html, Act_LeftImageAndTitle.html, Act_RightImage.html, Act_RightImageAndTitle.html and Act_TextAndTitle.html
BROCHUREFRAMENAVBAR			
Act_BrochureFrameSet.html	Frame navigation page source	The URL of the page containing the frame navigation bar icons	
BROCHURELOGO			
Act_BrochurePrimary.html	Brochure site logo image	The image that appears at the top of the page.	Act_BrochureImage.html

Template	Name	Description	Source
BTNTABLEBTNNAME			
Act_VariantBtnTableRowItem.html	Button name	The actinic-generated reference to the form element	
BTNTABLEBTNVALUE			
Act_VariantBtnTableRowItem.html	Button value	The value that appears on the button	Select a product, Edit, Advanced , Prompts, Button, or Design Options Defaults "Add to Cart" Button Label
BTNTABLECOLNUMBER			
Act_VariantBtnTableHeader.html	Button table column number	Number of columns in the button table. Depends on how many choices the attribute has.	
BTNTABLELABEL			
Act_VariantBtnTableColRowLabel.htm	Button label	Inserts the name of the choice into the HTML	Select Choice, Edit, Name
BULK			
Act_Primary.html	The page body	Replaced by the page specific guts	Various sources
BUTTONLABEL			
Act_CartButton.html	Button label	The label on the button. If the label is not specified in the product details, the default label is used	Select a product, Edit, Advanced , Prompts, Button or or Design Options Shop Defaults "Add to Cart" Button Label
Act_SingleCartButton.html	Button label	The label on the button. If the label is not specified in the product details, the default label is used	Design Options Shop Defaults Single Button Label
BUTTONNAME			
Act_CartButton.html	Button value	This value identifies the product being added to the cart.	Various, normally the product reference number.
Act_SingleCartButton.html	Button value		
BUYNOWLABEL			
Act_OrderDetail.html	Checkout Now button label	The "checkout now" button label	Design Text Web Site Misc. search for "Checkout Now"

Template	Name	Description	Source
CANCELBUTTON			
Act_Order00.html	"Cancel" button label	The "Cancel" button label.	Design Text Web Site tab Encryption (Java). This field is on the Java tab because it is shared with the applet label descriptions.
Act_Order01.html	"Cancel" button label	The "Cancel" button label.	Design Text Web Site tab Encryption (Java) sub-tab Sixth tab. This field is on the Java tab because it is shared with the applet label descriptions.
Act_Order02.html	"Cancel" button label	The "Cancel" button label.	Design Text Web Site tab Encryption (Java) sub-tab Sixth tab. This field is on the Java tab because it is shared with the applet label descriptions.
Act_SignPage.html	"Cancel" button label	The "cancel" button label.	View Design Options Advanced: Language tab Encryption (Java). This field is on the Java tab because it is shared with the applet label descriptions.
CANCELLABEL			
Act_OrderDetail.html	Cancel button label	The "cancel" button label.	In Design Text Web Site Encryption (Java) search for "Cancel". This field is on the Java tab because it is shared with the applet label descriptions.
CARTCAPTION			
Act_ShoppingCartXML.html	Shopping cart caption	Text that appears just above the shopping cart	Design Text Web Site Shopping Cart/Receipt and Design Options Shop Defaults Receipt Currency label
CARTERRORLISTXML			
Act_ProductBody.html	The error message when mandatory details are not supplied	If you are in the shopping mode whereby quantities etc are shown on the store page, then error messages will be included on the store page via this variable.	Automatically generated and shown online
CARTERRORXML			
Act_ProductLine.html	Error message	Message text when wrong information supplied	Automatically generated and inserted online
CATALOGBODY			
Act_FrameSet.html	Catalog body page name	The URL of the base page of the online catalog. Normally 'catalogbody.html'	
CATALOGSUSPENDED			
Act_Suspended.html	Catalog Suspended message	The message provided when online ordering is suspended.	Design Text Web Site (cont) General Information

Template	Name	Description	Source
CHECKBOXLABEL			
Act_VariantCheckBox.html	Name of check box	The text label accompanying this form element	Select component, Edit, Name
CHECKBOXNAME			
Act_VariantCheckBox.html	Check box name	The actinic-generated reference to the form element	

Template	Name	Description	Source
CHECKOUTBG			
Act_AdvancedTax.html	Form background	The colour used for the form table background colour. The colour is specified in "#rrggbb" with "rr" being the hexadecimal colour value for red, "gg" for green, and "bb" for blue (use the colour selector).	Design Colors

RETAILONLYWARNING			
Act_SearchTemplate.html	Warning concerning retail prices	Default message reads "Note that price based searches operate on retail prices and may not match the price you pay."	Design Text Web Site Misc.
SEARCHHANDSTRING			
Act_SearchTemplate.html	'And' keywords joining expression	By default this reads "all"	Design Text Web Site Searching
SEARCHBODY			
Act_CatalogBody.html	The front page search elements	The search page markup is copied here from the search page.	Act_SearchTemplate.html
SEARCHCOMBINE			
Act_SearchTemplate.html	Start of keywords combination phrase	By default, this reads "Look for products containing"	Design Text Web Site Searching
SEARCHCOMBINEINFO			
Act_SearchTemplate.html	End of keywords combination phrase	By default this reads "of the above words"	Design Text Web Site Searching
SEARCHLABEL			
Act_SearchTemplate.html	Submit button label	Text that appears on the search tool submit button	Design Text Web Site Misc.
SEARCHORSTRING			
Act_SearchTemplate.html	'Or' keywords joining expression	By default this reads "any"	Design Text Web Site Searching

Template	Name	Description	Source
SEARCHPROMPT			
Act_SearchTemplate.html	The search prompt text	The initial text, describing what to do in the search.	Design Text Web Site Searching
SEARCHPROP			
Act_SearchTemplate.html	Search properties	Actinic Business. If you are searching on properties or attributes, the HTML will be inserted here	Act_SearchProperties.html
SEARCHSTRING			
Act_SearchTemplate.html	Search text	By default this reads "Search words"	Design Text Web Site Searching
SECTIONCONTROL			
Act_SearchTemplate.html	Searching by sections tool	This drop down list is generated by the application (i.e. it is not templated)	
SECTIONCONTROLLABEL			
Act_SearchTemplate.html	Searching by sections label	Label introducing the searching by sections tool	Design Text Web Site Searching
SECTIONIMAGE			
Act_Header.html	Section image	The image associated with the section represented by this document. This value is null unless the current document is a section page. Even if the current page is a section this value could be null if no image is defined.	Act_SectionHeadImage.html
Act_SectionLine.html	Section icon image	The section icon image (if any).	Act_SectionNavImage.html
SECTIONLINK			
Act_ParentSectionsLink.html	URL of section	The URL of the page above the currently shown page.	
Act_SectionLine.html	Section page URL	The URL of the product page that contains the products and child sections for this section	
Act_SiteMapSectionLine.html	URL of link	The URL of the section online	
SECTIONLISTBOTTOM			
Act_ProductBody.html	Optional location of the child section links	The list of child sections in the catalog. This is suppressed if View Design Options Sections, Location and Arrangement of Section Lists, List Placement does not include Bottom.	Location and Arrangement of Section Lists in Design Options Sections and Design Options Layouts, and Act_SectionLine.html
SECTIONLISTTOP			
Act_ProductBody.html	Optional location of the child section links	The list of child sections in the catalog. This is suppressed if View Design Options Sections, Location and Arrangement of Section Lists, List Placement does not include Top.	Location and Arrangement of Section Lists in Design Options Sections and Design Options Layouts, and Act_SectionLine.html

Template	Name	Description	Source
SECTIONNAME			
Act_ParentSectionsLink.html	Name of section	The name of a section above the current section in the section hierarchy	Select a section, Edit, Name
Act_ParentSectionsThis.html	Name of section	The name of the current section	Select a section, Edit, Name
Act_SectionLine.html	Section name	The text name of the section, if any	Select a section, Edit, Name
Act_SiteMapSectionLine.html	Name of section	The name of the section	Select a section, Edit, Name
SECTIONTEXT			
Act_Header.html	Section name	The descriptive text for this section. This variable is not placed in the Act_Header.html file by default, but is available to it. This value is null unless the current document is a section or if the section name is blank.	Select a section, Edit, Advanced, General, Description
Act_SectionLine.html	Section name	The section description if any	Select a section, Edit, Description
SELECTONE			
Act_Order04.html	Text	Text requesting the customer to select from the list of credit card options. This field is hidden unless the customer selected "send details separately" as a payment method.	Design Text Web Site tab Shopping Cart/Receipt sub-tab Twelfth line
SENDSEPARATELY			
Act_Order04.html	Send details separately directions	Directions explaining how to send the credit card details off-line. This field is hidden unless the customer pays with the "send credit card details separately" option.	Design Text Web Site Shopping Cart/Receipt
SEPARATORBAR			
Act_Footer.html	Separator	Separator between sections - may be suppressed if not required	Act_SectionSeparator.html
Act_Header.html	Separator	Separator between sections - may be suppressed if not required	Act_SectionSeparator.html
SHIPANDHANDLEINFO			
Act_Order01.html	Shipping and handling terms and conditions	The shipping and handling Terms & Conditions. This value is hidden from the page if the shipping section is hidden.	View Business Settings Terms & Conditions tab Shipping + Handling sub-tab
SHIPMESSAGE			
Act_Order01.html	Shipping message	The shipping message.	View Business Settings Shipping Message field

Template	Name	Description	Source
SHIPPING			
Act_ShoppingCartXML.html	Shipping value	The shipping value	Format derived from selected currency settings, and Design Options Miscellaneous Price Display
SHIPPINGCAPTION			
Act_ShoppingCartXML.html	Shipping caption	The shipping caption in the shopping cart table	Design Text Web Site Shopping Cart/Receipt
SHIPPINGEXTRAINFO			
Act_ShippingSelectTemplate.html	Shipping extra info	Extra shipping info	
SHIPPINGSELECT			
Act_ShippingSelectTemplate.html	shipping class drop down menu	The shipping class drop down menu.	View Business Settings Shipping Classes
SHIPPINGVALUE
